

# National Vocational Certificate Level 1 in Electrical-Electronic Assembly

CBT Curriculum

**National Vocational & Technical Training Commission**

5th Floor, Evacuee Trust Complex

Sector F-5/1, Islamabad

Tel: +92 51 904404

Fax: +92 51 904404

Email: info@navttc.org

**Author:**

Engr. Ghazanfar Abbas ( Senior Manager Curriculum – PVTC) , Mr. Abdul Waheed Tabassum (Instructor - VTI Piplan ) , Mr. Saeed Ahmed ( Instructor – VTI Faisalabad)

**Reviewed by:**

Mr. Ibrahim Ali ( Service Engineer Metrola Engineering Corp KPK ) , Mr. Habib-ur-Rehman ( Engineer ( P&M ) , Ihsan cotton products Lahore ) , Mr. Muhammad Saime Dilawar ( ( Head Projects Wise Engineering & Business Solutions )

**Layout and Design by:**

Ms. Maria Arif ( Freelance Consultant )

**Date of approval by NCRC:**

29th -30th October 2014

**Date of Notification:**

10th December 2014, vide notification no F.2-1/2013-DD(VT)

This curriculum has been produced by the National Vocational & Technical Training Commission (NAVTTCC) with the technical assistance of TVET Reform Support Programme, which is funded by the European Union, the Embassy of the Kingdom of the Netherlands, Federal Republic of Germany and the Royal Norwegian Embassy. The Programme has been commissioned by the German Federal Ministry for Economic Cooperation and Development and is being implemented by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH.

## 1. Introduction

Today's 'World of Work' has undergone radical changes. The emergence of new technologies, global markets for products and services, and international competition require economies to upgrade and enhance the skill level of their human resources. Technical and Vocational Education and Training (TVET) systems all over the world are constantly challenged by this question of how to respond to the demand of a knowledge-based economy. As TVET systems and their training programmes directly relate to the world of work in terms of quantity and quality output, the approach of TVET programmes need to focus on the acquisition of technical and non-technical skills, also referred to as employability skills.

With the release of the National Skills Strategy 2009-2013 the Pakistan government has made skills development a political priority. The framework for skills development aims to:

- Change TVET education from time-bound, curriculum-based training to flexible, competency-based training;
- Bring about a shift from supply-led training to demand-driven (outcome-based) skills development by promoting the role of industry in designing and delivering TVET.

The curriculum for ***Electrical & Electronic Assembler (Helper) – Level 1*** aims to respond to this demand. It has been developed as an outcome-based course designed to teach the employability skills needed to succeed in a high-performance work environment, as defined by labour market requirements. Although occupation specific, this course seamlessly articulates with advanced training programmes on NVQF level 2, such as *Building Electrician (Assistant)*, *Electro Machine Installer & Repairer (Assistant)*, *Electrical Equipment Installer & Repairer (Assistant)*, and *Industrial Electrician (Assistant)*.

### 1.1 Overall course objective

The overall objective of this introductory course is to teach trainees transferable skills necessary to succeed in the ever-changing workplace through teamwork, problem-solving, communication, self-management, and career readiness. Trainees will enhance soft skills, basic workplace skills, interpersonal skills, communication skills, and leadership skills while becoming career-ready.

## 1.2 Course competencies

Curriculum modules (training input) are clusters of competencies expressed in learning units, learning outcomes, and learning elements. After successful completion of the two curriculum modules of this course, the trainee has gained a range of competencies required to proceed in the world of work. The competencies stated in table 1 reflect industry requirements expressed in competency standards (training output).

Table 1: Relationship of curriculum modules with competency standards

Curriculum Modules (training input)	Competency Standards (training output)
<p><b>Module 1: Workshop introduction</b></p> <p>LU-1: Maintain health and safety</p> <p>LU-2: Carry out basic maintenance</p> <p>LU-3: Demonstrate positive workplace attitude and behaviours</p>	<ul style="list-style-type: none"> <li>- Maintain health, safety and cleanliness</li> <li>- Carry out maintenance procedures as Electrical &amp; Electronic Assembler (Helper)</li> <li>- Apply a problem solving method</li> <li>- Demonstrate positive workplace attitude and behaviours</li> </ul>
<p><b>Module 2: Workshop communication</b></p> <p>LU-1: Communicate in the workplace</p> <p>LU-2: Complete work documents</p> <p>LU-3: Apply basic numeracy</p> <p>LU-4: Develop personal career portfolio</p>	<ul style="list-style-type: none"> <li>- Communicate in different work contexts</li> <li>- Apply basic reading, writing and speaking skills in different life contexts</li> <li>- Apply basic numeracy skills in different life contexts</li> <li>- Produce a plan for career options related to a Electrical &amp; Electronic Assembler (Helper)</li> </ul>

### 1.3 Job opportunities

The level 1 training course related to **Electrical & Electronic Assembler (Helper)** transfers work-readiness skills (employability skills) and articulates with a number of level 2 training programmes in Electrical Engineering. Based on the design and flexible approach qualified trainees will find opportunities in a number of specialised areas to work as a 'Helper', such as *Building Electrician (Helper)*, *Electro Machine Installer & Repairer (Helper)*, *Electrical Equipment Installer & Repairer (Helper)*, and *Industrial Electrician (Helper)*.

After completion of the level 2 training programme qualified trainees can further progress and embark on a career in the field of Electrical Engineering, providing job opportunities as Technician, Foreman, Manager, Owner or Electrical Engineer in government, semi-government or private enterprises. Experienced Electricians may advance through promotions with the same employer or by moving to more advanced positions with other employers.

### 1.4 Trainee entry level

Individuals who wish to enter this course of study have to comply against the following criteria:

- Grade 8 (Middle) or equivalent;
- Comfort level of English language and mathematics;
- Satisfactory completion of appropriate admission assessment test.

### 1.5 Trainer requirements

Trainers who wish to offer this programme should meet one of the following requirements:

- B.Sc. Engg. and 1 year of relevant experience; or
- B-Tech and 2 years of relevant experience; or
- Diploma Associate Engineer (DAE) and 3 years relevant experience; or
- Certificate as Electrical & Electronic Assembler with 5 years relevant experience

Trainers offering this programme must be computer literate and be conversant with the delivery of competency-based education and training (CBET). All legislative requirements applicable to carry out training and assessment, if any, must be complied with.

## 1.6 Teaching strategies in a competency-based environment

Training in a competency-based environment differs from the traditional method of training delivery. It is based on defined competency standards, which are industry oriented.

The traditional role of a trainer changes and shifts towards the facilitation of training. A facilitator in CBET encourages and assists trainees to learn for themselves. Trainees are likely to work in groups (pairs) and all doing something different. Some are doing practical tasks in the workshop, some writing, some not even in the classroom or workshop but in another part of the building using specialist equipment, working on computers doing research on the Internet or the library. As trainees learn at different pace they might well be at different stages in their learning, thus learning must be tailored to suit individual needs.

The following facilitation methods (teaching strategies) are generally employed in CBET programmes:

- **Direct Instruction Method:** This might be effective when introducing a new topic to a larger group of trainees in a relative short amount of time. In most cases this method relies on one-way communication, hence there are limited opportunities to get feedback on the trainee's understanding.
- **Discussion Method:** This allows trainees to actively participate in sharing knowledge and ideas. It will help the trainer to determine whether trainees understand the content of the topic. On the other hand, there is a possibility of straying off topic under discussion and some trainees dominating others on their views.
- **Small Group Method:** Pairing trainees to help and learn from each other often results in faster knowledge/skill transfer than with the whole class. The physical arrangement of the classroom/workshop and individual assessment may be challenging.
- **Problem Solving Method:** This is a very popular teaching strategy for CBET. Trainees are challenged and are usually highly motivated when they gain new knowledge and skills by solving problems (Contingency skills). Trainees develop critical thinking skills and the ability to adapt to new learning situations (Transfer skills). It might be time consuming and because trainees sometimes work individually, they may not learn all the things that they are expected to learn.
- **Research Method:** This is used for workshops and laboratory tasks, field experiments, and case studies. It encourages trainees to investigate and find answers for themselves and to critically evaluate information. It however requires a lot of time and careful planning of research projects for the trainee.

## 1.7 Medium of instruction

Instructions will be provided in Urdu, local languages and/or English.

## 1.8 Sequence and delivery of the modules

The curriculum for ***Electrical & Electronic Assembler (Helper) – NVQF level 1***, consists of two (2) modules and should be delivered in the following sequence:

**Module 1:**Workplace introduction

*Learning units within this module can be delivered interchangeably as stand-alone modules or in a holistic approach*

**Module 2:**Workplace communication

*Learning units within this module can be delivered interchangeably as stand-alone modules or in a holistic approach*

All theoretical content related to the modules should be delivered, where possible, in an applied setting related to the ***Electrical & Electronic Assembler (Helper)*** work environment.

2. Overview about the programme: Curriculum for Electrical & Electronic Assembler (Helper)  
– NVQF Level 1

Module Title and Aim	Learning Units	Theory <sup>1</sup> hours	Workplace <sup>2</sup> hours	Timeframe of modules
<p><b><u>Module 1: Workplace introduction</u></b> <i>Aim:</i> To provide trainees with the knowledge and skills to carry out safely basic maintenance work as Electrical &amp; Electronic Assembler (Helper)</p>	<p><b>LU-1:</b> Maintain health and safety <b>LU-2:</b> Carry out basic maintenance <b>LU-3:</b> Demonstrate positive workplace attitude and behaviours</p>	<b>65</b>	<b>95</b>	<b>160</b>
<p><b><u>Module 2: Workplace communication</u></b> <i>Aim:</i> To provide trainees with the knowledge and skills to effectively communicate verbally and non-verbally in a Electrical &amp; Electronic Assembler (Helper) work environment</p>	<p><b>LU-1:</b> Communicate in the workplace <b>LU-2:</b> Complete work documents <b>LU-3:</b> Apply basic numeracy <b>LU-4:</b> Develop personal career portfolio</p>	<b>115</b>	<b>55</b>	<b>170</b>

<sup>1</sup>Learning hours in training provider premises

<sup>2</sup>Training workshop, laboratory and on-the-job workplace

### 3. Electrical & Electronic Assembler (Helper) Curriculum Contents

<b>Module 1:</b>	<b>Workplace introduction</b>				
<b>Objective of the Module:</b>	<p>On completion of this module the trainee will be able to demonstrate the following competencies according to industry standards and/or requirements:</p> <ul style="list-style-type: none"> <li>• Maintain health and safety</li> <li>• Carry out maintenance procedures as part of Electrical &amp; Electronic Assembler (Helper)</li> <li>• Apply a problem solving method</li> <li>• Demonstrate positive workplace attitude and behaviours</li> </ul>				
<b>Duration:</b>	Total: 160 hours	Theory: 65 hours	Practice: 95 hours		
<b>Learning Unit</b>	<b>Learning Outcomes</b>	<b>Learning Elements</b>	<b>Duration(Hours)</b>	<b>Materials Required</b>	<b>Learning Place</b>
<b>LU-1: Maintain health and safety</b>  <i>This learning unit addresses competency standard(s): FL-001 – A1/2/3/4* FL-009 – A3*</i>  <i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i>	1.1 Define the term 'hazard'	Definition • Hazard	<b>Total</b> 60  <b>Theory</b> 20  <b>Practical</b> 40	<ul style="list-style-type: none"> <li>• Fire extinguisher</li> <li>• Fire blanket</li> <li>• Fire bucket</li> <li>• Safety signage</li> <li>• Personal protective equipment and clothing</li> </ul> (Clothing <ul style="list-style-type: none"> <li>• Overall</li> <li>• Steel cap boots</li> <li>• High visibility vest</li> <li>• Jacket</li> <li>• Rubber insulated gloves</li> </ul> Equipment <ul style="list-style-type: none"> <li>• Safety goggles</li> <li>• Safety hat</li> <li>• Ear muffs/plugs)</li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> <li>• Workplace</li> </ul>
	1.2 Identify the different types of hazards	<ul style="list-style-type: none"> <li>• Acute hazards</li> <li>• Chronic hazards</li> </ul>			
	1.3 Describe the different ways of controlling hazards	<ul style="list-style-type: none"> <li>• Elimination</li> <li>• Substitution</li> <li>• Enclosure or isolation</li> <li>• Work practices</li> <li>• Training and education</li> <li>• Administrative controls</li> </ul>			
	1.4 Describe the procedures for reporting hazards	Procedures for reporting hazards			
	1.5 Define the term 'personal protective equipment and clothing'	Definition <ul style="list-style-type: none"> <li>• Personal protective equipment and clothing</li> </ul>			

				<ul style="list-style-type: none"><li>• Teaching aids</li><li>• Flip charts</li><li>• Computer <i>(preferably with internet access)</i></li></ul>	
--	--	--	--	---	--

	1.6 Identify different types of personal protective clothing and equipment, their use and storage	<p>Clothing</p> <ul style="list-style-type: none"> <li>• Overall</li> <li>• Steel cap boots</li> <li>• High visibility vest</li> <li>• Jacket</li> <li>• Rubber insulated gloves</li> </ul> <p>Equipment</p> <ul style="list-style-type: none"> <li>• Safety goggles</li> <li>• Safety hat</li> <li>• Ear muffs/plugs</li> </ul> <p>Use and storage</p>			
	1.7 Define the term 'emergency' and 'evacuation'	<p>Definition</p> <ul style="list-style-type: none"> <li>• Emergency</li> </ul> <p>Definition</p> <ul style="list-style-type: none"> <li>• Evacuation</li> </ul>			
	1.8 Identify emergency situations	<ul style="list-style-type: none"> <li>• Accidents</li> <li>• Fire</li> <li>• Electric shock</li> <li>• Flood</li> <li>• Earthquake</li> <li>• Chemical spill</li> </ul>			
	1.9 Demonstrate procedures for dealing with emergency situations	<p>Roles and responsibilities</p> <ul style="list-style-type: none"> <li>• Safety officer</li> <li>• Supervisor</li> <li>• Worker</li> </ul>			
	1.10 Demonstrate evacuation procedures	<p>Procedures</p>			

	1.11 List fire prevention methods	<ul style="list-style-type: none"> <li>• Good House keeping</li> <li>• Training</li> </ul>			
	1.12 Describe the different classes of fire	<ul style="list-style-type: none"> <li>• Class A – wood, paper or cloth</li> <li>• Class B – liquids</li> <li>• Class C – gas</li> <li>• Class E - electrical</li> </ul>			
	1.13 Identify different types of fire fighting equipment	<ul style="list-style-type: none"> <li>• Fire blanket</li> <li>• Fire extinguisher</li> </ul>			
	1.14 Demonstrate use of fire fighting equipment	<ul style="list-style-type: none"> <li>• Procedures for using fire fighting equipment</li> </ul>			
	1.15 Describe the key features of safety signs and symbols	<ul style="list-style-type: none"> <li>• Shape</li> <li>• Colour</li> <li>• Graphics</li> </ul>			
	1.16 Explain the meaning of safety signs and symbols	<ul style="list-style-type: none"> <li>• Hazard identification</li> <li>• Facility or location signs</li> <li>• Site safety</li> <li>• Directional</li> <li>• Traffic</li> <li>• Warning signs and symbols</li> </ul>			
	1.17 Describe the importance of cleanliness	<ul style="list-style-type: none"> <li>• Personal hygiene</li> <li>• Workplace cleanliness</li> </ul>			
	1.18 Demonstrate procedures for handling and storing items and materials	<ul style="list-style-type: none"> <li>• Procedures for handling and storing</li> </ul>			

<p><b>LU-2: Carry out basic maintenance</b></p> <p><i>This learning unit addresses competency standard(s): FL-003 – A1/2/3* FL-008 – A1/2*</i></p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	2.1 Define the terms 'preventive' and 'corrective maintenance'	<p>Definition</p> <ul style="list-style-type: none"> <li>• Preventive maintenance</li> <li>• Corrective maintenance</li> </ul>	<p><b>Total</b> 60 <b>Theory</b> 15 <b>Practical</b>45</p>	<ul style="list-style-type: none"> <li>• Hand tools</li> <li>• Tools and materials for cleaning, lubricating, sharpening, oiling, and insulating</li> <li>• Labels</li> <li>• Storage facilities</li> <li>• Examples of workplace documentation</li> <li>• Safety signage</li> <li>• Personal protective equipment and clothing</li> <li>• Teaching aids</li> <li>• Flip charts</li> <li>• Computer <i>(preferably with internet access)</i></li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> <li>• Workplace</li> </ul>
	2.2 Describe benefits of preventive maintenance	<p>Benefits may include:</p> <ul style="list-style-type: none"> <li>• Safety</li> <li>• Efficiency</li> <li>• Time- and cost saving</li> </ul>			
	2.3 Identify hazards associated with preventive maintenance	<p>Hazards may include but are not limited to:</p> <ul style="list-style-type: none"> <li>• Cuts</li> <li>• Burns</li> <li>• Electric shocks</li> <li>• Fire</li> <li>• Explosion</li> </ul>			
	2.4 Demonstrate procedures for conducting basic checks on tools and equipment	<ul style="list-style-type: none"> <li>• Labeling of functional and non-functional tools and equipment</li> </ul>			
	2.5 Perform basic maintenance procedures as part of Electrical & Electronic Assembler (Helper)	<p>Maintenance programme</p> <ul style="list-style-type: none"> <li>• Cleaning and lubricating</li> <li>• Sharpening</li> <li>• Oiling</li> <li>• Insulating</li> </ul>			
	2.6 Demonstrate procedures for storing tools and equipment	<ul style="list-style-type: none"> <li>• Inventory of tools and equipment</li> <li>• Proper storage of tools and equipment</li> <li>• Documentation of maintenance procedures</li> </ul>			

	<p>2.7 Demonstrate problem solving procedures as Electrical &amp; Electronic Assembler (Helper) related to preventive maintenance</p>	<p>Apply the Bransford IDEAL model (problem solving)</p> <ul style="list-style-type: none"><li>• Identify the problem</li><li>• Define the problem through thinking about it and sorting out the relevant information</li><li>• Explore solutions through looking at alternatives, and checking out different points of view</li><li>• Act on strategies</li><li>• Look back and evaluate the effects of your capacity</li></ul>			
--	---	--	--	--	--

<p><b>LU-3: Demonstrate positive workplace attitude and behaviours</b></p> <p><i>This learning unit addresses competency standard(s): FL-007 – A1/2/3*</i></p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	3.1 Define the term 'work ethic'	<p>Definition</p> <ul style="list-style-type: none"> <li>• Work ethic</li> </ul>	<p><b>Total</b> 40</p> <p><b>Theory</b> 30</p> <p><b>Practical</b>10</p>	<ul style="list-style-type: none"> <li>• Teaching aids</li> <li>• Flip charts</li> <li>• Computer <i>(preferably with internet access)</i></li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> </ul>
	3.2 Describe factors that demonstrate strong work ethic	<p>Work ethic factors</p> <ul style="list-style-type: none"> <li>• Integrity <ul style="list-style-type: none"> <li>- Confidentiality</li> </ul> </li> <li>• Sense of responsibility <ul style="list-style-type: none"> <li>- Time management</li> </ul> </li> <li>• Emphasis on quality <ul style="list-style-type: none"> <li>- Commitment to work</li> </ul> </li> <li>• Discipline <ul style="list-style-type: none"> <li>- Patience and tolerance</li> </ul> </li> <li>• Sense of teamwork <ul style="list-style-type: none"> <li>- Meeting goals as a team</li> </ul> </li> </ul> <p>Customer service Communication Attire Influencing factors, such as:</p> <ul style="list-style-type: none"> <li>• Anger</li> <li>• Stress</li> <li>• Depression</li> </ul> <p>Ways to assess own professional behaviour</p>			

<b>Module 2:</b>	<b>Workplace communication</b>				
<b>Objective of the Module:</b>	<p>On completion of this module the trainee will be able to demonstrate the following competencies according to industry standards and/or requirements:</p> <ul style="list-style-type: none"> <li>• Communicate in different work contexts</li> <li>• Apply basic reading, writing and speaking skills in English in different life contexts</li> <li>• Apply basic numeracy skills in different life contexts</li> <li>• Produce a plan for career options related to Electrical &amp; Electronic Assembler (Helper)</li> </ul>				
<b>Duration:</b>	Total: 170 hours	Theory: 115hours	Practice: 55hours		
<b>Learning Unit</b>	<b>Learning Outcomes</b>	<b>Learning Elements</b>	<b>Duration</b>	<b>Materials Required</b>	<b>Learning Place</b>
<b>LU-1: Communicate in the workplace</b>  <i>This learning unit addresses competency standard(s): FL-002 – A1/2/3* FL-005 – A3*</i>  <i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i>	1.1 Define technical terms related to succeeding on the job	Terms pertaining to basic work skills in Electrical & Electronic Assembler (Helper)	<b>Total</b> 30	<ul style="list-style-type: none"> <li>• Examples of workplace documentation</li> <li>• Workplace forms</li> <li>• Safety signage</li> <li>• Teaching aids</li> <li>• Flip charts</li> <li>• Computer <i>(preferably with internet access)</i></li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> <li>• Workplace</li> </ul>
	1.2 List different types of communication	Face to face <ul style="list-style-type: none"> <li>• Verbal and non verbal</li> </ul> Written <ul style="list-style-type: none"> <li>• Work instructions</li> <li>• Specifications</li> <li>• Safety sheets</li> <li>• Notice boards</li> </ul> Visual <ul style="list-style-type: none"> <li>• Safety signs</li> <li>• Hand signals</li> </ul> Electronic <ul style="list-style-type: none"> <li>• Purpose and function of electronic communication devices, such as:               <ul style="list-style-type: none"> <li>- Two way radio</li> <li>- Telephone, Facsimile</li> <li>- E-mail</li> </ul> </li> </ul>	<b>Theory</b> 15  <b>Practical</b> 15		

	1.3 Demonstrate receiving and responding to information using different communication types	<ul style="list-style-type: none"><li>• Effective face to face communication<ul style="list-style-type: none"><li>- Appropriate communication etiquette</li></ul></li><li>• Effective visual communication<ul style="list-style-type: none"><li>- Appropriate communication etiquette</li></ul></li><li>• Effective electronic communication<ul style="list-style-type: none"><li>- Appropriate communication etiquette</li></ul></li></ul>			
--	---	---	--	--	--

<p><b>LU-2: Complete work-related documents</b></p> <p><i>This learning unit addresses competency standard(s): FL-002 – A4* FL-005 – A1/2*</i></p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<p>2.1 Assess the need for accurate written directions to complete a task</p>	<p>Interpretation of texts, key words and phrases, in work related documents, such as</p> <ul style="list-style-type: none"> <li>• Workplace forms</li> <li>• Job cards</li> <li>• Installation guides</li> <li>• Manufacturers' specifications</li> </ul> <p>Completion of work related documents</p> <ul style="list-style-type: none"> <li>• Workplace forms</li> <li>• Job cards</li> </ul>	<p><b>Total</b> 60 <b>Theory</b> 40 <b>Practical</b>20</p>	<ul style="list-style-type: none"> <li>• Examples of workplace documentation</li> <li>• Workplace forms</li> <li>• Job cards</li> <li>• Installation guides</li> <li>• Manufacturers' specifications</li> <li>• Technical literature</li> <li>• Safety signage</li> <li>• Teaching aids</li> <li>• Flip charts</li> <li>• Computer <i>(preferably with internet access)</i></li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> <li>• Workplace</li> </ul>
	<p>2.2 Fill Technical report forms in simple English for practical purposes related to the Electrical &amp; Electronic Assembler (Helper) work environment</p>	<ul style="list-style-type: none"> <li>• Spelling</li> <li>• Punctuation</li> </ul>			
	<p>2.3 Demonstrate understanding from reading a simple text related to the work of a Electrical &amp; Electronic Assembler (Helper)</p>	<p>Purpose of text Main idea(s) of text Key words and phrases Opinion on text</p>			

<p><b>LU-3: Apply basic numeracy</b></p> <p><i>This learning unit addresses competency standard(s): FL-006 – A1/2/3/4/5*</i></p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<p>3.1 Identify two- and three dimensional shapes</p>	<p>Two or three dimensional shapes may include:</p> <ul style="list-style-type: none"> <li>• Rectangle</li> <li>• Triangle</li> <li>• Sphere</li> <li>• Cube</li> <li>• Cylinder</li> <li>• Pyramid</li> <li>• Square</li> <li>• Polygons</li> <li>• Circle</li> <li>• Cuboids</li> </ul> <p>Use correct terminology, such as:</p> <ul style="list-style-type: none"> <li>• Horizontal</li> <li>• Vertical</li> <li>• Parallel</li> <li>• Sides</li> <li>• Corners</li> <li>• Edges</li> <li>• Arc</li> <li>• Angles</li> <li>• Degrees</li> <li>• Length</li> <li>• Width</li> <li>• Breadth</li> <li>• Height</li> <li>• Straight</li> <li>• Points</li> <li>• Diameter</li> <li>• Radius</li> </ul>	<p><b>Total</b> 50 <b>Theory</b> 40 <b>Practical</b>10</p>	<ul style="list-style-type: none"> <li>• Two- and three dimensional shapes / objects</li> <li>• Measuring instruments, such as rulers, watches / clocks, scales,</li> <li>• Geometry box</li> <li>• thermometers, AVO meter, gravity meter</li> <li>• Teaching aids</li> <li>• Flip charts</li> <li>• Computer <i>(preferably with internet access)</i></li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> <li>• Workplace</li> </ul>
---	---	--	--	--	--

	<p>3.2 Sketch in diagrammatic form simple two dimensional shapes and objects</p>	<p>Two or three dimensional objects may include:</p> <ul style="list-style-type: none"> <li>• Rectangle</li> <li>• Triangle</li> <li>• Sphere</li> <li>• Cube</li> <li>• Cylinder</li> <li>• Square</li> <li>• Circle</li> </ul>			
	<p>3.3 Assemble simple three-dimensional objects by following construction instructions, plans or diagrams</p>	<p>Simple three dimensional objects may include:</p> <ul style="list-style-type: none"> <li>• Cube</li> <li>• Cylinder</li> <li>• Pyramid</li> <li>• Cuboids</li> </ul>			
	<p>3.4 Identify measuring instruments used as Electrical &amp; Electronic Assembler (Helper)</p>	<p>Measuring instruments for Electrical &amp; Electronic Assembler (Helper) may include:</p> <ul style="list-style-type: none"> <li>• Rulers, including use</li> <li>• Watches / clocks</li> <li>• Scales</li> <li>• Thermometers</li> <li>• AVO meter</li> <li>• Gravity meter</li> <li>• Oscilloscope</li> <li>• Clamp on meter</li> </ul>			
	<p>3.5 Calculate area and volume of regular shapes and objects</p>	<p>Simple formulae for calculating area and volume</p>			

	<p>3.6 Demonstrate basic calculation procedures related to money and time, including whole numbers, simple fractions and decimals</p>	<p>Money</p> <ul style="list-style-type: none"> <li>• Addition</li> <li>• Subtraction</li> <li>• Division</li> <li>• Percentage</li> <li>• Rounding</li> </ul> <p>Time</p> <ul style="list-style-type: none"> <li>• Calculate time lapsed</li> <li>• Summation of time</li> <li>• Appending additional time</li> </ul>			
	<p>3.7 Demonstrate knowledge of graphs and tables</p>	<p>Graphs may include:</p> <ul style="list-style-type: none"> <li>• Simple line and bar graphs</li> </ul> <p>Tables may include:</p> <ul style="list-style-type: none"> <li>• Simple two and three column tables</li> <li>• Tables used in everyday life such as timetables</li> </ul> <p>Collect and record data</p> <ul style="list-style-type: none"> <li>• Preparation of basic data and tables</li> </ul>			

	3.8 Demonstrate use of simple formulae and algebraic expressions	Simple formulae and algebraic expressions may relate to: <ul style="list-style-type: none"> <li>• Area</li> <li>• Perimeter</li> <li>• Dimensions of regular shapes</li> </ul>			
<b>LU-4: Develop a personal career portfolio</b>  <i>This learning unit addresses competency standard(s): FL-014 – A1/2*</i>  <i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i>	4.1 Describe the purpose of developing a personal career profile	<ul style="list-style-type: none"> <li>• Personal development</li> <li>• Compatible career options</li> <li>• Sources for career information</li> </ul>	<b>Total</b> 30 <b>Theory</b> 20 <b>Practical</b> 10	<ul style="list-style-type: none"> <li>• Teaching aids</li> <li>• Flip charts</li> <li>• Computer <i>(preferably with internet access)</i></li> </ul>	<ul style="list-style-type: none"> <li>• Classroom</li> </ul>
	4.2 Assess personal values, knowledge, aptitudes, skills, interest, experience, and accomplishments	<ul style="list-style-type: none"> <li>• Analysis of own knowledge, skills, and abilities</li> <li>• Compatible career options</li> <li>• Sources for career information</li> </ul>			
	4.3 Identify realistic and measurable personal and professional goals	<ul style="list-style-type: none"> <li>• Short-term goals</li> <li>• Long-term goals</li> <li>• Milestones</li> <li>• Completion date</li> <li>• Criteria for review</li> <li>• Time period</li> </ul>			

## **4. Assessment guidance**

Competency-based assessment is the process of gathering evidence to confirm the candidate's ability to perform according to specified outcomes articulated in the competency standard(s).

### **4.1 Types of assessment**

#### **a) Sessional assessment**

The goal of sessional assessment is to monitor student progress in order to provide constant feedback. This feedback can be used by the trainers to improve their teaching and by learners to improve their learning.

More specifically, sessional assessments help learners to identify their strengths and weaknesses and help trainers to recognise where learners are struggling and address problems immediately.

Examples of sessional assessments include:

- Observations
- Presentations
- Activity sheets
- Oral questions

#### **b) Summative (final) assessment**

The goal of summative (final) assessment is to evaluate learning progress at the end of a training programme by comparing it against, e.g. set of competency standards.

Examples of summative assessments include:

- Direct observation of work activities
- Written questions

## 4.2 Principles of assessment

When conducting assessment or developing assessment tools, trainers/assessors need to ensure that the following principles of assessment are met:

### Validity

- Indicates if the assessment outcome is supported by evidence. The assessment outcome is valid if the assessment methods and materials reflect the critical aspects of evidence required by the competency standards (Competency units, performance criteria, knowledge and understanding).

### Reliability

- Indicates the level of consistency and accuracy of the assessment outcomes. The assessment is reliable if the assessment outcome will produce the same result for learners with equal competence at different times or places, regardless of the trainer or assessor conducting the assessment.

### Flexibility

- Indicates the opportunity for learners to discuss certain aspects of their assessment with their trainer or assessor, such as scheduling the assessment. All learners should be made aware of the purpose of assessment, the assessment criteria, the methods and tools used, and the context and proposed timing of the assessment well in advance. This can be achieved by drawing up a plan for assessment.

### Fair assessment

- Fair assessment does not advantage or disadvantage particular learners because of status, race, beliefs, culture and/or gender. This also means that assessment methods may need to be adjusted for learners with disabilities or cultural differences. An assessment should not place unnecessary demands on learners that may prevent them from demonstrating competence.

### 4.3 Assessment template – Sessional and Summative assessment

#### Module 1: Workplace introduction

Learning Units	Recommended form of assessment	
	Sessional	Summative
<p><b>Maintain health and safety</b>  <i>This learning unit addresses competency standard(s):</i>            FL-001 – A1/2/3/4*            FL-012 – A3*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Observation</li> <li>• Activity sheets</li> <li>• Oral and written questions</li> <li>• Demonstration</li> </ul>	<p>Integrated assessment:</p> <ul style="list-style-type: none"> <li>• Demonstration</li> <li>• Role play</li> <li>• Oral and written questions</li> </ul>
<p><b>Carry out basic maintenance</b>  <i>This learning unit addresses competency standard(s):</i>            FL-003 – A1/2/3*            FL-012 – A1/2*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Observation</li> <li>• Activity sheets</li> <li>• Oral and written questions</li> <li>• Demonstration</li> </ul>	
<p><b>Demonstrate positive workplace attitude and behaviours</b>  <i>This learning unit addresses competency standard(s):</i>            FL-007 – A1/2/3*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Observation</li> <li>• Activity sheets</li> <li>• Oral and written questions</li> <li>• Demonstration</li> </ul>	

## Module 2: Workplace communication

Learning Units	Recommended form of assessment	
	Sessional	Summative
<p><b>Communicate in the workplace</b></p> <p><i>This learning unit addresses competency standard(s):</i>            FL-002 – A1/2/3*            FL-005 – A3*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Observation</li> <li>• Activity sheets</li> <li>• Role play</li> <li>• Oral and written questions</li> </ul>	<p>Integrated assessment:</p> <ul style="list-style-type: none"> <li>• Demonstration</li> <li>• Role play</li> <li>• Oral and written questions</li> </ul>
<p><b>Complete work-related documents</b></p> <p><i>This learning unit addresses competency standard(s):</i>            FL-002 – A4*            FL-005 – A1/2*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Observation</li> <li>• Activity sheets</li> <li>• Role play</li> <li>• Oral and written questions</li> </ul>	
<p><b>Apply basic numeracy</b></p> <p><i>This learning unit addresses competency standard(s):</i>            FL-006 – A1/2/3/4/5*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Observation</li> <li>• Activity sheets</li> <li>• Role play</li> <li>• Oral and written questions</li> </ul>	
<p><b>Develop a personal career portfolio</b></p> <p><i>This learning unit addresses competency standard(s):</i>            FL-017 – A1/2*</p> <p><i>* In absence of a national coding system for competency standards, internal training provider codes are being used</i></p>	<ul style="list-style-type: none"> <li>• Oral and written questions</li> </ul>	

## 5. List of Tools, Machinery & Equipment

Occupational title		Electrical & Electronic Assembler (Helper) – Level 1	
Duration		3 months	
Sr. No.	Name of Item/ Equipment / Tools		Quantity
1.	Fire extinguisher		05
2.	Fire blanket		05
3.	Fire bucket		05
4.	Personal protective equipment and clothing (Clothing <ul style="list-style-type: none"> <li>• Overall</li> <li>• Steel cap boots</li> <li>• High visibility vest</li> <li>• Jacket</li> <li>• Rubber insulated gloves</li> </ul> Equipment <ul style="list-style-type: none"> <li>• Safety goggles</li> <li>• Safety hat</li> <li>• Ear muffs/plugs)</li> </ul>		25 each
5.	Teaching aids (Learning material, visual material)		As required
6.	Flip charts		500
7.	Computer		05
8.	Hand tools		25 set
9.	Tools and materials for cleaning, lubricating, sharpening, oiling, and insulating		25 set
10.	Tags/Labels		50 sets

11.	Storage facilities	As required
12.	Examples of workplace documentation, Workplace forms, Job cards, Installation guides, Manufacturers' specifications, Technical literature	As required
13.	Safety signage	As required
14.	Geometry Box	25
15	Pliers	10
16	Nose pliers	10
17	Wire stripper	10
18	Spanner set	02
19	Files (Set)	07
20	Screw driver (flat,)	10
21	Screw driver (Phillips)	10
22	Hammer	07
23	Centre punch	07
24	Hack saw	07
25	Soldering gun	07
26	Digital multi meter	10
27	Digital clamp meter ( AC & DC )	10
28	Workshop scissor	10
29	Workshop knife	10
30	Magnifier ( Glass )	07
31	Screw driver set	10

## 6. List of Consumable Supplies

<b>Occupational title</b>	<b>Electrical &amp; Electronic Assembler (Helper) – Level 1</b>	
<b>Duration</b>	<b>3 months</b>	
<b>Sr. No.</b>	<b>Name of Consumable Supplies</b>	<b>Quantity</b>
1.	Notepad	50
2.	Ball pens	50
3.	Pencils	50
4.	Erasers	50
5.	Sharpeners	50
6.	White board markers in different colours	5 each colour
7.	Stapler	02
8.	Paper punch	05
9.	Ruler	05
10.	Compass	05
11	Lubricating Oil	1 Lb
12	Grease	1Lb
