Strengthening employability of youth through skill development

INTRODUCTION

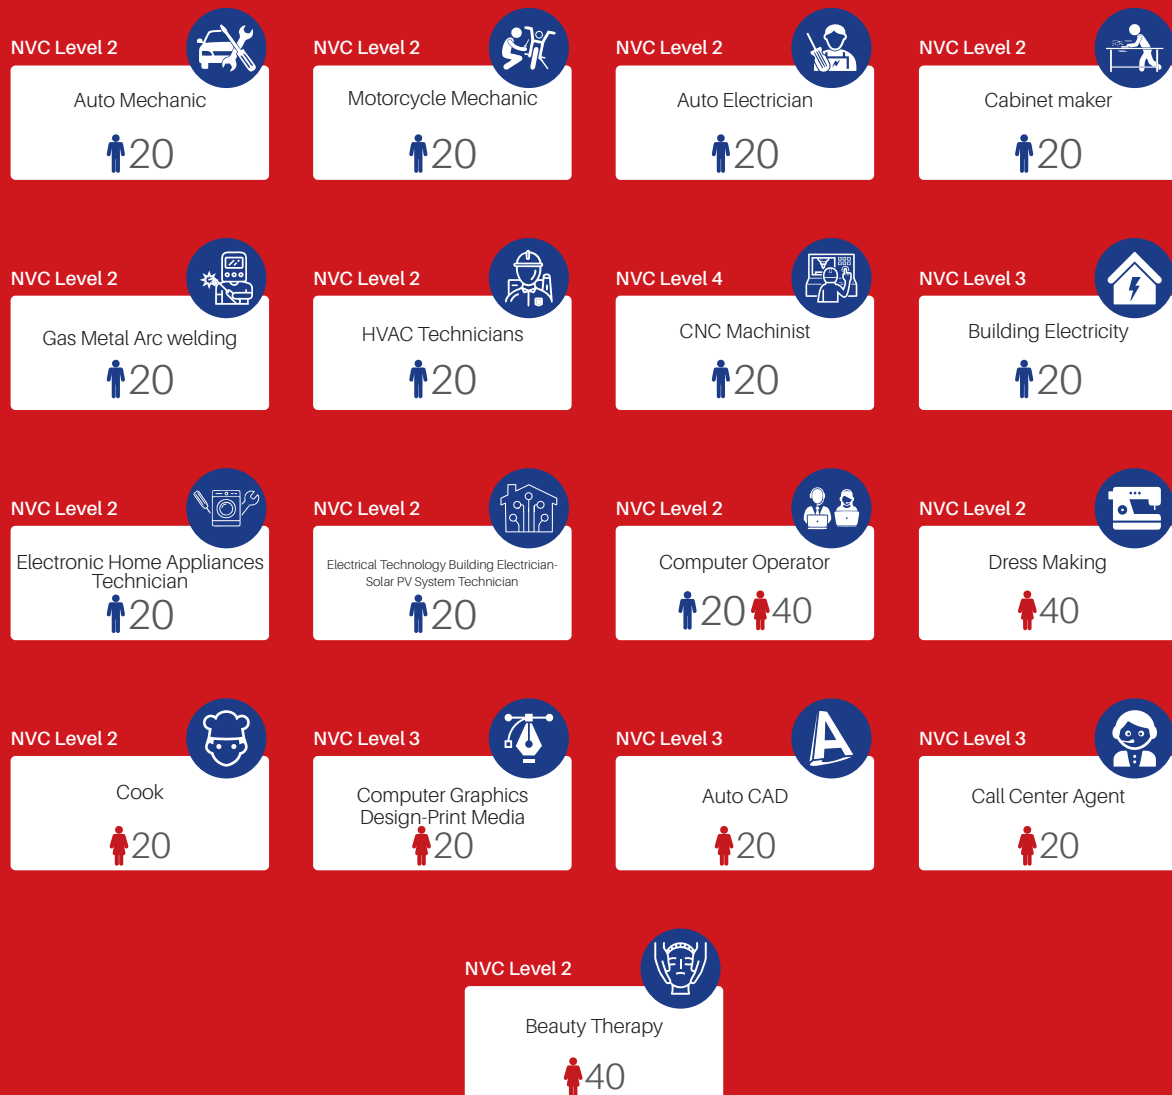

The TVET Sector Support Programme promotes an active partnership between technical education and vocational training (TVET) institutes and private sector for imparting industry demand-driven training. The workplace-based training approach provides trained human resource to the employers according to their need, thus, increasing the chances of employments of graduates. The involved enterprises and business industry associations are engaged in selecting relevant qualifications, planning and delivering training, and conducting assessments within the national qualification framework of Pakistan.

The Programme provides technical support to training institutes and enterprises to link theoretical with practical training at the workplace. In this regard, both sides can agree on flexible approaches in training delivery, which meet the demands of the involved enterprises.

OBJECTIVES

This project is designed to impart hands-on practical training jointly with the partnering enterprise to at least 420 trainees (220 men and 200 women) in demand-driven trades. The project imparts and promote competency-based training delivery and assessments approach in-line with National Vocational Qualification Framework (NVQF). It also assists unemployed job seekers and employers through counselling and on job training. Also, through engagement of the enterprises and business industry associations (BIAs) in training design, coordination and delivery, the project creates employment prospects for the graduates.
